

Amendments to the Specification:

Please replace paragraph 138 with the following paragraph:

[0138] The invention may be adapted to automation as by, for example, tangibly embodying a program of instructions upon a storage media, such as for example, computer hard disk drives, CD-ROM drives and removable media such as CDs, DVDs, Universal Serial Bus (USB) drives, floppy disks, diskettes and tapes, readable by a machine capable of executing the instructions, such as a computer.
